

Approximating Surface Matrix Band for Dentist to Use for Patients

[Project Page](#)

Date: April 17th, 2026 - April 23rd, 2026

Client: Dr. Donald Tipple

Advisor: Prof. Beth Meyerand

Team:

Roshan Patel - rgpatel3@wisc.edu (Team Leader)

Anya Hadim - hadim@wisc.edu (Communicator)

Keleous Lange - krlange@wisc.edu (BPAG)

Tanya Predko - tpredko@wisc.edu (BWIG)

Joseph Koch - jmkoch7@wisc.edu (BSAC)

Problem statement

Surface matrix bands are devices used by dentists to separate adjacent teeth during restorations of interproximal cavities (cavities found in-between two teeth). The matrix band serves to support the restoration material, to provide shape and contour to the tooth being restored, and to protect the adjacent tooth. Ideally, the width of the space between the two adjacent teeth is just large enough to fit one matrix band in order to ensure close proximal contact area, which prevents food impaction and decay. In the case of two cavities on two adjacent teeth, this process is tedious, as the dentist must complete the process from start to finish for each adjacent tooth individually. The goal of this project is to create a dental matrix band that effectively partitions adjacent teeth for more efficient tooth restoration procedures on interproximal cavities by making it possible to complete two adjacent restorations simultaneously.

Brief status update

Dr. Williams is still having trouble getting the laser cutter to fabricate a usable matrix. The team is looking towards other options,

Summary of weekly team member design accomplishments

- Roshan Patel
 - Obtained additional prototype testing by timing more of the procedures.
 - Worked on the poster.
- Anya Hadim
 - Obtained additional prototype testing by timing more of the procedures.
 - Worked on the poster.
- Keleous Lange
 - Worked on the poster.
- Tanya Predko
 - Obtained additional prototype testing by timing more of the procedures.
 - Worked on the poster.
- Joseph Koch
 - Obtained additional prototype testing by timing more of the procedures.
 - Worked on the poster.
