	Group	Sara	Michele	Emily

	January		February					March			April			May	
(Fridays)	25	1	8	15	22	29	7	14	21	28	4	11	18	25	2	9
Deliverables																
Progress Reports																
PDS	Update as needed															
Midsemester Work						Prepare	Present									
Design Notebooks																
Advisor Meeting																Final meeting
Outreach	TBD following correspondence with schools															
Final Work											Prepare poster/information			Present	Final Report DUE	
Research																
Microcontroller Research																
LabVIEW work																
Stepper Motor																
Circuit Elements (relays, other switches)																
Mechanical Design																
Improvements																
Electrical Design																
Implement Algorithm in LabVIEW																
Design Relay Circuit																
Program Microcontroller																
Purchase Additional Parts																
Testing																
Bite Plate/Tubing Testing																
Inhaler Position/Drug Delivery																
LabVIEW algorithm (3 subjects)																
Operational qualifications																
Mechanical design																
Electrical design																
Updates																
Website																
BSAC Meeting																
Client Meetings
